

Say "Yes" to More Mobile Customers

Consumers live on their smartphones. To reach them, you need a solution for fast, frictionless, and secure mobile account opening. DSi Mobile InterceptSM and DSi Accelerated InsightSM return data-driven insights in seconds. Account opening is fast and easy for consumers and safe and predictable for DSi clients.

A Complete Solution for Mobile Account Screening

Use mobile account opening and real-time data-driven insights to grow accounts, grow profits, and enter new markets.

DSi Mobile Intercept

Mobile Intercept is an identity document authentication service designed specifically to address the challenges of authenticating and onboarding consumers on mobile devices.

Featuring real-time ID authentication and auto-form-fill, the Mobile Intercept Web service provides a fast, reliable way of streamlining account-opening and transaction verification to deliver a frictionless customer experience.

Using Mobile Intercept, DSi clients gain:

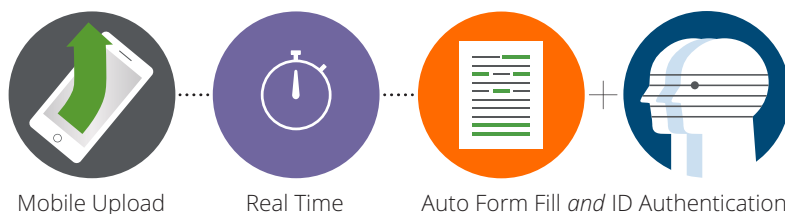

- Real-time ID authentication
 - » Verification of ID and document security features
 - » Near instant response
- Auto form-filled data
 - » Real-time insertion of card data into applicant forms
 - » Reduced risks of errors and abandonment
- Tokenization of card data
 - » Patent-pending storage of tokenized card imagery
 - » Ability to track ID usage across locations and transactions
- CIP compliance
 - » Support for using card data for KYC/CIP compliance
 - » Easy integration with other account-screening services, including DSi Accelerated Insight

DSi Accelerated Insight

DSi Accelerated Insight is a real-time account-screening service that enables DSi clients to verify the identity and assess the financial stability of applicants, including applicants with little or no financial history.

Using Accelerated Insight, DSi clients gain:

- Unique scores
 - » FCRA and non-FCRA risk/confidence scores for account segmentation
 - » OFAC score
- Predictability even for thin-file and no-file applicants
 - » Broad coverage that supports financial inclusion
 - » Real-time identity verification and risk assessment
- Insight into waterfall metrics that matter
 - » Detailed analysis of which metrics correlate with profitability
 - » Clear direction for optimizing data waterfalls for better business results
- Customized analysis and machine learning
 - » Scores are trained on the metrics that matter to each institution
 - » Scores leverage machine learning to increase accuracy over time

About DSi (Dragnet Solutions®, Inc)

DSi (Dragnet Solutions, Inc.) is a leading provider of data-driven insight services that enable clients to reach new markets, open new channels, and safely grow profitable accounts. Our mission is to transform the financial industry by enabling access through data-driven insights. We enable our clients to leverage data-driven insights to access new markets, open new channels and say "yes" to more profitable customers, including the nearly 30% of American households that are invisible to traditional account-screening services.
